## WORK EXPERIENCE

**Mobile Developer**
FreshDirect | Apr 2024 – Present

- **FreshDirect** is a New York–based delivery service owned by **Getir**.
- **Developed** and optimized **React Native** components for a **high-traffic** grocery delivery app used by thousands of users daily.
- **Worked** with an **international** team to implement new features **improving** user engagement.
- **Conducted** thorough code reviews and **contributed** to architectural decisions to **maintain** high-quality standards.
- Furthermore; I used **TypeScript**, **React Native**, **Jira, Git, Apollo Graphql.**

**Frontend Developer**
Codeventure | Apr 2022 – Present

- **Codeventure** is a software house that has developed Vigo, Cornix, etc.
- In a very short time, I got a chance to be part of the development of various **websites** and **apps**.
- **Led** the development of a **React Native** app with **1M+ downloads**.
- I was part of planning apps and communicating with customers.
- Furthermore; I used **JavaScript**, **TypeScript**, **React.js**, **Next.js**, **React Native, REST,** and **Git**.

**Frontend Developer**
Likom | Oct 2021 - Apr 2022

- **Likom** was founded in 1984, as one of the oldest software firms in Turkey.
- **Contributed** to the development of a **large-scale ERP** system used by thousands of businesses, focusing on front-end performance optimization.
- **Developed** and **maintained** reusable components, ensuring scalability and consistency across the platform.
- Furthermore; I used **JavaScript**, **React.js**, **REST** and **Git**.

**Full-Stack Developer**
BEST Transformers | Jun 2020 - Jun 2021

- **BEST** is one of the biggest transformer manufacturers in Turkey.
- **Built web-based** factory inspection system allowing engineers to **monitor** key metrics and organization schemas.
- Designed and developed internal applications to **optimize** industrial workflow processes, **enhancing** operational efficiency.
- Furthermore; I used **jQuery**, **ASP.NET Core MVC**, **React.js**, **REST**, and **Git**.

## PROJECTS I WANT TO MENTION

**El Poder Del Amor**

- The El Poder Del Amor Mobile App is the **official mobile application** of the television program "**Kısmetse Olur**".
- It has been downloaded by more than **1 million** people, reaching a large audience.
- Implemented a r**eal-time voting system**, enabling audience participation in show decisions.
- Designed and optimized **video call** to enhance user integration.
- Integrated **face recognition** system called Mamacita measuring users' facial similarity.

**5S Inspection**

- Created a **web-based** factory inspection system using **ASP.NET Core** that **improved efficiency** and quality control by streamlining industrial audits
- **Designed** and implemented an intuitive UI for engineers to perform, review, and manage inspections effortlessly.
- **Developed** dynamic dashboards with **data visualization**, providing reports for management and engineers.

**Todays History**

- Launched a history trivia app available on **App Store & Play Store**, offering daily historical facts and interactive features.
- **Developed** a custom trivia module that allows users to test their knowledge on historical events.
- Implemented **push notifications** to boost user engagement and daily active users.
